

## How do I login to my account and start my pretest session?

You should type (or copy) the following web address into your computer's web browser: **soile.braintrain.fi**

Next, you should click on the "Login" – button in the upper right corner of the page, whereafter you can login to your account by typing your username (i.e., your **Prolific email**) and password in the empty boxes found below the "Sign in" on the left side of the page (see Figure). After that, the pretest starts.

The screenshot shows a web interface with two main sections: "Sign in" and "Create Account". The "Sign in" section has a dark header and contains two input fields: "username or email" and "password". Below these fields is a checkbox labeled "Remember me" and a green "Login" button. The "Create Account" section has a blue header and a blue "Create Account" button. Annotations include: an arrow pointing to the "username or email" field with the text "Type your username"; an arrow pointing to the "password" field with the text "Type your password"; a red circle around the "Login" button; and a mouse cursor icon pointing at the "Login" button. A link "Forgot password? Click here!" is located below the "Sign in" section.
